

CIRS Joins Helsinki REACH Centre

23 Feb 2010

CIRS has officially joined Helsinki REACH Centre (HRC) at the beginning of February 2010. As a member of Helsinki REACH Centre (HRC), CIRS will have first-hand source of information related to REACH and work with leading REACH experts in Helsinki from ECHA and other industry associations to discuss problems and practical solutions to better help its customers comply with REACH.

Located in proximity to ECHA, HRC was officially established on 1 September 2006. It started as a discussion forum but has evolved into an active network of non-EU industry and REACH specialists. HRC aims to support the non-EU industry associations and non-EU companies to fulfill the REACH requirements.

CIRS is a REACH compliance service provider recommended by China Inspection and Quarantine Bureau and the U.S. Mission to the EU. CIRS is also a company supported by Irish Government through Investment and Development Agency (IDA). After joining HRC, CIRS will be able to provide better services to its customers.
